

Downloading Instructions for the Bandcamp Album - For all phones

Four Bridges' tracks are also available as a free download on Bandcamp. To access this option, you will have to download the album on your computer, then sync it to your phone.

Go to <https://howardhersh.bandcamp.com/album/four-bridges-by-howard-hersh>, then choose "Free Download." On the right hand side of the photo, there is a link for downloading assistance and instructions on macs or PC's.

Bandcamp's download default is the compressed MP3 format. If you prefer a higher audio quality, go to the dropdown menu and select "WAV" or "AIFF."

When the files are downloaded, drag them into your phone's music folder. They will appear, in the proper order, next to the image of Montalvo's high meadow.

To access the walk, drive to Parking Lot 2 at the Montalvo Arts Center and go to the sign announcing the start of Four Bridges. Start Track 1 and wait there until instructed to enter the trailhead and begin your walk. When prompted by signs along the route, advance to the next track.
