

MONTALVO ARTS CENTER

Friends of the Lucas Artists Residency Program (LAP)

Statement of Purpose

Friends of the Lucas Artists Residency Program are advocates, rainmakers, and investors, whose philanthropic support facilitates the work of brilliant artists from around the world while they take residence in the heart of Silicon Valley. Taking the lead in supporting Montalvo Arts Center by expanding the pioneering work of this artistic incubator, Friends of the LAP help to sustain Montalvo's ability to present the art of its multi-disciplinary artists at increasingly high levels for years to come. **The Friends of the LAP have inside access to resident artists and their creative process while they engage in research and development, risk-taking, and creating new and adventurous work at the edge of their fields.**
